

Party Low Line

As the name suggests, our Party Low Line range is perfect for private outdoor parties. Its unique design, built on a durable Alko-Kober chassis, means the units are lower for easy access and their compact shape allows them to fit easily into awkward areas. Ideal for when party space is at a premium. Of course it's their stylish design that really sets these loos apart, making any occasion feel extra special.

Their stylish layout includes:

- Luxurious metallic silver finish exterior
- High quality porcelain and stainless facilities
- Chrome finish taps and dispensers
- Large polished edge mirrors
- Warm running water
- Hand Soaps
- Flowers
- Concealed waste bin
- Amtico flooring

All our units are fully self-contained and require no water for drainage (however they can be set up to the mains for longer term use). They arrive fully stocked and ready for immediate use, with a handy supply of toilet rolls, paper hand towels, hand soaps and moisturizers. In fact, all you need to provide is a 13 amp power supply.

Any special requirements can also be taken care of easily. For instance, we can provide disabled units and even separate standard loos for staff. Just tell us what you need and we'll do the rest.
